The blend of quality and perfection is what makes a Specialist.

Being pioneers in the modular kitchen industry in India, we know that the design of your kitchen is fundamental in bringing a fresh and exciting feel to your home.

We, at Sleek, design kitchens that are a reflection of you; be it taste, class, character or style. With innovative design concepts, latest styles and features and high-end technology, we bring you kitchens that are functional in design and classy in style.

We make your kitchen your favourite space at home; be it for your morning cup of tea or simply entertaining relatives and friends.

Add to your glamour quotient with this ultra chic kitchen that comes with intelligently in-built cabinets and PU Shutters for a quintessential sleek look. Its continuous design, in-built oven and microwave adds to its sophistication. This kitchen with its rich combination is designed to make a style statement that calls for many a happy times in your kitchen.

The right collaboration of subtle styling with aesthetic harmony, characterizes this kitchen's sheer elegance, sturdiness and simplicity. A design that incorporates the latest trends in modular kitchens with handle-less toughened glass shutters, super sleek chimney and hob. The use of Grass Nova Pro drawer systems and storage options adds to its intelligent blend of taste and functionality.

A purely classic kitchen that's absolutely chic is designed to suit every modern home. Its intelligent use of space with the twin corner unit and SS Delite wire baskets makes for smart storage solutions while the use of high quality materials ensures durability and its combination shutters make it an undisputed beauty.

A vision in white is what this avant-garde design explores, with new forms amidst modern colours and natural textures, to bring out a kitchen that's innovative and trendy. The use of neumatic hinges by LAMP in its top-lifting shutters make for a refined stylish idea that are both ergonomic and functional. Its PU shutters in white and grey and an in-built microwave and oven is sure to make you feel glamorous even in your cooking avatar.

A new age design to make a style statement and yet give you a classic look and feel. The back painted shutters are a perfect way to add a dash of colour to your kitchen.

Perfect finishes for the perfect kitchen.

The Kitchen Specialist brings you over 500 shutter designs in various textures and patterns. Slek's range includes the finest quality shutters available in the market; PU, Solid Wood, Aluminum Profile with glass, MDF & Marine ply shutters, that come in various finishes like solid wood, veneer pressed, lacquered, back painted, membrane-pressed, post form and 4 side edge-banded.

Available in vibrant colours, its smooth finish won't chip or crack easily. These stylish shutters not only look fantastic but are also easy to clean and maintain.

Sleek Sunshine Shutters is the latest range of scintillating shutters for a bright and happy kitchen.

- Bright and glossy finish for an everlasting shine.
- Extra-tough, scratch-resistant surface finish.
- Water-proof material, no more swelling or warping.
- Seamless edge, bacteria-free, to ensure complete hygiene.
- Easy to clean and maintain.
- Extremely durable, every shutter goes through 20 stringent tests.

A well-organised kitchen makes cooking fast and easy.

To function efficiently, everything should be in perfect order. Same goes for your kitchen. Think how fast and easy your cooking would be if everything you need is within an arm's reach. The secret to a well-organised kitchen is proper planning with the use of new and innovative kitchen solutions.

Under Sink Unit

A place for everything and everything in its place.

Proper arrangement of your kitchen implements and stores is the first rule of an organised kitchen. A cutlery drawer is a sensible idea to systematically arrange your cutlery. Another amazing design is this under sink unit. Individual bins for wet and dry garbage, plus neat compartments to store other utilities. Check out more of these kitchen systems at your nearest Sleek showroom.

Contemporary hobs with fuel-efficient technology.

World-renowned chimneys with low noise levels, higher suction and practically no maintenance.

Swivel Larder Unit that rotates smoothly to give you a full view of your storage.

Sleek offers **2 times more storage** than ordinary kitchens. To know how you too can maximise your storage, visit our showroom or call our specialists today!
